As most of you know, my device sucks. I can't get on Homebase, so I won't be able to get on the new forums... So I'll have to leave.

I will stay as long as I can, and will try to be extra active. I'll probably make a separate thread to assign my OCs... After all, I have quite a few that are plot-important in their rps.

I don't want to leave either, especially when I'm so close to my forumversary... I hope the 'next gen' forums will come to be, and that I can access them...

I'll miss you Sorrel! I'm regretting now that I didn't get to know the newer forumers when they all started joining in swarms late last year.

I'm sorry to see you leave Sorrel, it's been great to know you and RP with you. I hope that there's is a newsfeed and that you can stay around here. But, in case that doesn't happen, I'll be sorry to see you leave and just want to let you know that it was great getting to RP with you and know you. Hope you have a great life! And remember, the wiki for TMSH is always available if you want to chat!

Since you're here as well Bramble, I'm also sorry that you have to leave as well. It's been fun RPing with you and I do hope that the newsfeed does allow you to stick around as I will be sad to see you leave. I hope you have a great life! And remember, you can always drop by the wiki and chat if you want!

Warning, I am extremely busy right now and it may take a day for me to respond or longer. But I will try and get on to do stuff at least every other day, but I may not be able to.

You were one of the first to help me with ATttF and BtR and the Blue Wyrm Tavern... I promise that when ATttF starts up, I'll give a special mention to you...

I'll see you on the Other Side...

I finally after ten times of uninstalling and reinstalling got home base to work but it's laggy! sorrel might be able to use it through me Sometimes but she would be very inactive.

@Amarok: sweet. thx ok so I got it to work but just so you know this is really annoying but sorrel cant use wiki her device is that bad that this is one of the only places she could talk to people but I can and if (this is for anyone and everyone) if you want to talk to sorrel talk to me and tell me you want to speak with her and I will get her ok!

I join in may, so it's almost been a full year since I came here. Amarok, I'd have to sneak on the family computer to chat on wiki, since that's yet another site this device can't access. I'll miss you all as well, and I'll be on later today.

@Sorrel - goodbye! I'm so sorry to see you have to leave. Thanks so much for coming on these forums and being here with us, and I wish that you could access Home Base, or at the very least make it to your forumversary. It was an honor to have known you, and I'm sad it couldn't have been longer. Best of luck in the future!

@Bramble - same as above! But I'm glad to know that you'll be able to access HB, even belatedly. Hope to see you again!

Nooo! Sorrel!!

I understand your technology is unable to handle Home Base, so I'm not personally upset about it. It's just - you were one of the people that made me want to join this website. It won't be the same without you.
